

A meeting was held with existing and new prospective Buyers for INAM-Pro portal on Thursday, September 29, 2016. During this meeting several buyers raised concerns about the minimum Order Size condition. Specifically those Contractors operating in J&K mentioned about the 9 MT quantity restrictions as per the State's law.

To this end, it is proposed to:

- i. Reduce the Minimum Order Size to 10 MT.
- ii. Introduce option for short closing of Orders.
- iii. Facilitate Modification of Delivery Quantity as per negotiation between Seller and Buyer, during the Order Confirmation stage from Seller's end.

We seek your suggestions about what would be the favourability and preferred methodology for implementing the aforementioned changes.

Kindly revert to us with your feedback by any of the following methods:

- i. Call/Write to us on any of the Contact Details available on the [Contact Us](#) page.
- ii. Use the Feedback form available on the Home Page.
